## GALLERIA VIK MILANO MILAN, ITALY

The Galleria Vik Milano is perhaps not so much a hotel as it is a working portal to the renaissance period, reflecting Milan's rich cultural and artistic heritage in a striking ode to Italy's most famous creatives. Every wall and corridor at the Galleria is a canvas upon which the property's love of the surrealist, abstract or postmodern traditions is proudly displayed. Each room at the Galleria is a true work of art, possessing a bespoke visual identity honouring the works of Pino Pinelli, Felipe Cardena and Shinya Sakurai, among others. Just as no two people may extract the same meaning from a painting, no two stays at the Galleria are exactly alike: a feat accomplished by the regular rotation and reinvention of the property's exhibits.

The 89 room, instagram-worthy Galleria is ideally situated in the Milan Centre neighbourhood, providing a launchpoint for day trips to desirable landmarks like the Cathedral of Milan and the Piazza del Duomo, to say nothing of the wealth of boutique shops, restaurants and galleries in the vicinity. As one might expect from a boutique property in the heart of Milan, the Galleria is as much a delight to the tastebuds as it is to the eyes. Breakfast spot Vikissimo turns into a trendy acoustic lounge after sundown, while I Dodici Gatti Pizzeria serves up classical wood fired Neapolitan pizza from the rooftops overlooking the bustling streets and alleys surrounding the hotel.
